No 137P

Dated 2. August 1901

Sir,

I have the honor to forward the accompanying copy of letter No.83 dated 15th August 1901, from the Sub Assistant Surgeon at Davangere, reporting the occurrence of a plague case at Harihar and to request the favour of orders being issued, as regards Harihar being at once instituted as an inspection station

I have the honor to be

Sir,

Your most obedient servant

M.D.

Major I.M.S.

Mysore Government

Encl to S/ I

Davangere
15th August 1901

The Sub. Assistant Surgeon,
Davangere

To

The Assistant Surgeon Lohitwaldroog.

Sir

With reference to your wire of the 14th inst: and the letter No: 346 asking me to go to Harihar and help the Hospital assistant Abdul Khader in adopting Preventive measures against Plague

I have the honor to report that I went to Harihar on the 14th inst and in company with the Hospital assistant I went to the Plague camp and saw the Plague patient He is no very bad, his temperature was in the morning 101 & in the evening 103°, bowels regular & general condition good. He has 2 Buboes, right axillary right inguinal axillary bubo is differ more painful than the inguinal

I asked the Hospital Assistant to give good nourishment & stimulent to the patient, including broth and arrack,

to see that the Lampcoolie who attends to the dressing washes his hands and feet before going to the town. & to see that the Scavenger who attends to the cleaning of the shed, remains in the bamb itself & bury deep all the excreta of the patient. Three Constables were posted in the bamp to see that no body goes to the shed and the patient does not run away from the shed. As there were no contacts it was not difficult to prevent the spread of infection

This morning I went again to Harihar with the Deputy Commissioner. The patient had run to Vaniambadee to his parents who came to Harihar this morning. They are given a separate shed and are asked not to leave the bamb on any circumstances whatever and any other articles which they required are all supplied by police who are asked not to enter the shed but to remain outside and watch and supply articles to the contacts. All the belongings of the patient were disinfected and handed over The Railway carriage was disinfected by the Railway Apothecary.

Harihar people were asked to give timely intimations to the authorities of dead rats or of any suspicious disease. If the Lampcoolie, the police men and the Tatty carry out the instructions given them probably infection will not spread to the Town

The Deputy Commissioner was asked to appoint a Tatty and a warder temporarily

and

and to place a few rupees in advance with the Hospital assistant for feeding and other minor expenses.

Railway Apothecary told me that there were 6 dead rats in the Railway Coaching clerk's house. This clerk's son is an underguard and is working between Hubli and Harihar and I think this guard must have carried infection to the railway quarters from Hubli where there is much plague. The apothecary had unroofed only one room in the block and has asked his officer for permission to unroof the whole block

I have the honor to suggest that it is desirable to ask the Hospital assistant to inspect the passenger who get down at Harihar and also who are travelling further. One train reaches Harihar at 5.30. P.m. and the other at 8.30. P.m. both from Hubli side He will have enough of time to look at each passenger in his own carriage and only examine the pulse of the suspected person. By so doing he can to a great extent prevent any suspicious person entering the province from Hubli side by train

I have the honor to remain Sir,

your most obedient servant

8/31/8/01

Sir,

I am directed to state that having regard to the fact that plague is prevailing in virulent form in the District of Dharwar and especially in the Town of Hubli and in view to prevent the Bangalore City and other districts in the Province ~~state~~ from being reinfected, the Senior Surgeon recommends that all passengers coming from the Dharwar District into the Province should be examined at the Harihar Railway station and I am therefore to request that you will be so good as to move the Hon'ble the Resident to order the issue of a Notification constituting Harihar Railway station as an Inspection Station and authorizing the Hospital Assistant or other Medical Officers deputed by the Durbar to examine every incoming passenger

The Inspection at this station was discontinued under Resident's Notification No.297 dated the 2nd February 1900 with effect from 1st March 1900.

I am also to request that intimation of this fact may be given to the Agent Southern Maharatta Railway with a view to afford every facility to the inspection staff and to keep the Railway premises scrupulously clean.

The Railway authorities may also be requested to bring any suspecious cases to the notice of the Police at the Railway station who in their turn may give immediate information to the Mysore Police.

I have &c.,

Secretary.
